

Solar Fuels:

Science, Engineering, and Policy

SERC
SOLAR ENERGY
RESEARCH CENTER

Duke University and the Solar Energy Research Center (SERC) at UNC-Chapel Hill will co-host a scientific conference at the R. David Thomas Executive Conference Center at Duke University.

The conference is sponsored and organized by the UNC EFRC in Solar Fuels and Next Generation Photovoltaics, an Energy Frontier Research Center funded by the U.S. Department of Energy, Office of Science. Our principal co-sponsor is the Research Triangle Solar Fuels Institute.

Keynote Speakers:

Louis Brus, Columbia University

Michael Grätzel, Ecole Polytechnique Fédérale de Lausanne

Other Featured Speakers:

Robert Blankenship, Washington University in St. Louis

Robert Crabtree, Yale University

Stefano Curtarolo, Duke University

Moh El-Naggar, University of Southern California

Sossina Haile, California Institute of Technology

Yosuke Kanai, University of North Carolina

Clifford Kubiak, University of California at San Diego

Thomas Mallouk, Pennsylvania State University

James McCusker, Michigan State University

Jeffrey Neaton, Lawrence Berkeley National Laboratory

John Papanikolas, University of North Carolina

Berend Smit, University of California at Berkeley

Michael Therien, Duke University

William Tumas, National Renewable Energy Laboratory

Michael Wasielewski, Northwestern University

Raymond Ziessel, University of Strasbourg
