Global Average Temperature Increases with CO₂

Annual Land-Surface Average Temperature

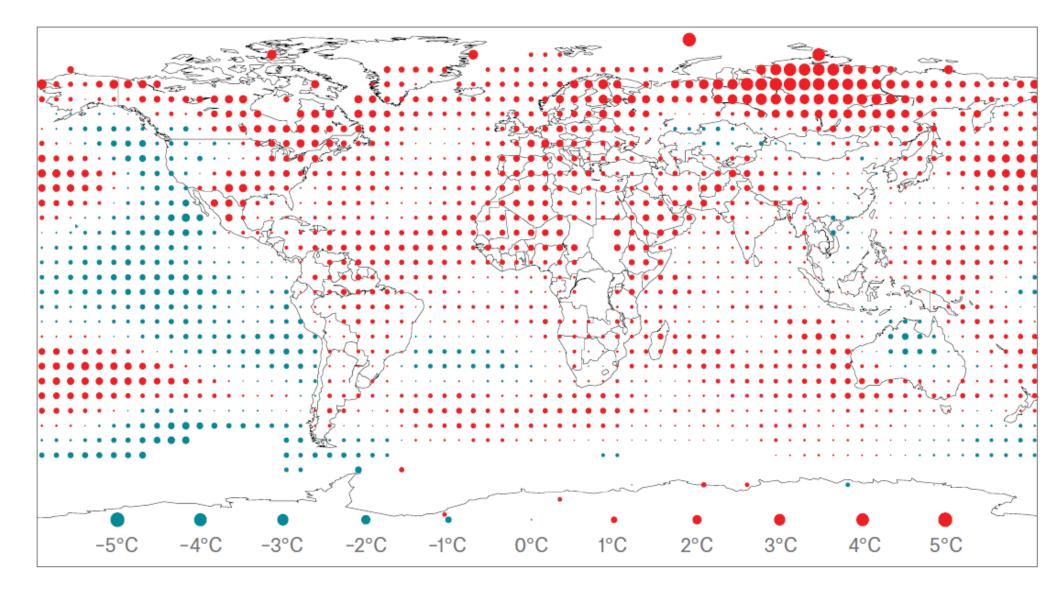

US energy-related CO2 emissions by sector and fuel, 2005 and 2035

4

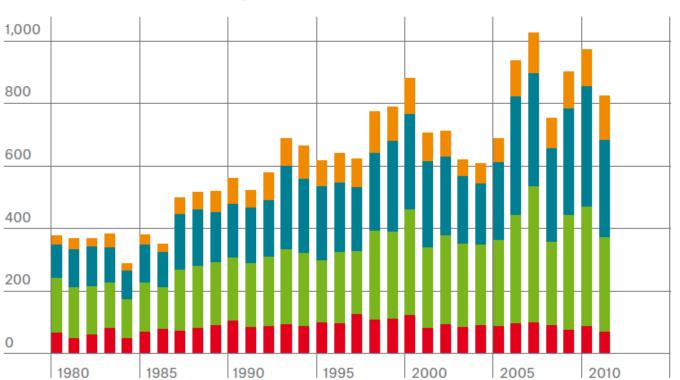

Regional mean annual temperature anomalies for 2011 with respect to a 1971-2000 base period

Number of Natural Catastrophes 1980-2011

Number of natural catastrophes 1980-2011

- Geophysical events: Earthquake, volcanic eruption
- Meteorological events: Tropical storm, winter storm, severe weather, hail, tornado, local storm
- Hydrological events: Storm surge, river flood, flash flood, mass movement (landslide)
- Climatological events: Heatwave, cold wave, wildfire, drought

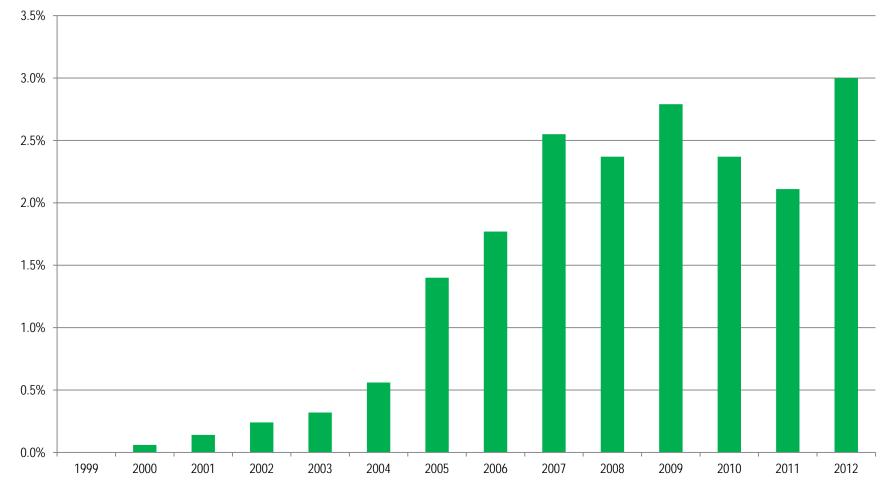

Tesla – 300 miles per charge car

Hybrid Sales 1999-2012 (per cent)

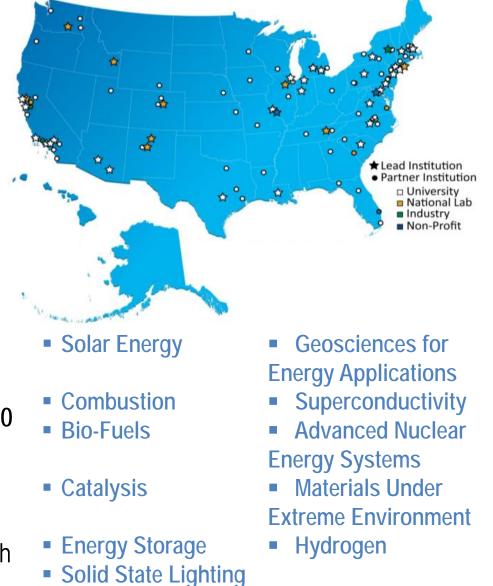

Energy Frontier Research Centers Grand Challenge and Use-Inspired Research

46 EFRCs in 35 states were launched in Fall 2009

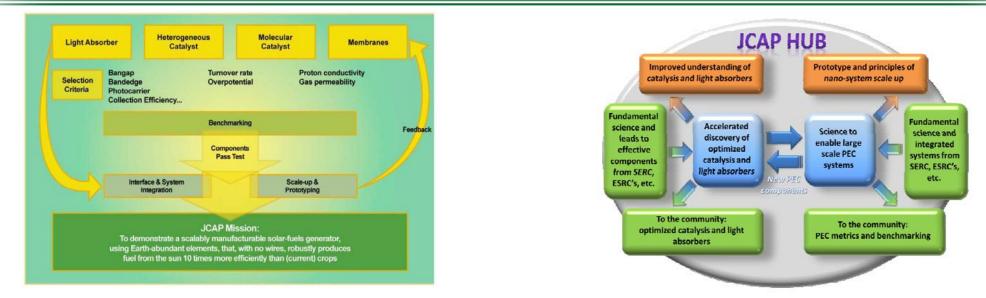

- Science crosscuts energy-use-inspired and grand challenge research
- ~850 senior investigators and ~2,000 students, postdoctoral fellows, and technical staff at ~115 institutions
- >250 scientific advisory board members from 13 countries and >40 companies

Impact to date (~2.5 years):

- >2,400 peer-reviewed papers including more than 60 publications in *Science* and *Nature*.
- > 125 patents applications, nearly 55 additional patent/invention disclosures, and 22 licenses
- >30 companies have benefitted from EFRC research results

Fuels from Sunlight Hub: Joint Center for Artificial Photosynthesis (JCAP)

JCAP Mission: To demonstrate a scalable, manufacturable solar-fuels generator using Earth-abundant elements, that, with no wires, robustly produces fuel from the sun ten times more efficiently than (current) crops.

JCAP R&D will focus on:

- Robustness of components
- Accelerating the rate of catalyst discovery for solar fuel reactions
- Discovering earth-abundant, robust, inorganic light absorbers with optimal band gap
- System integration, benchmarking, and scale-up

JCAP's role as a solar fuels Hub:

- Incorporating the latest discoveries from the community (EFRCs, single-PI or small-group research)
- Providing metrics and benchmarking to the community

Other hubs or hub like structures

Existing:

- Biofuel Centers (Science)
 - Joint BioEnergy Institute
 - BioEnergy Science Center
 - Great Lakes Bioenergy Research Center
- Energy Efficient Buildings Hub (EERE)
- Consortium for Advanced Simulation of Light Water Reactors (Nuclear Energy)

Coming soon:

- Battery Hub (<u>Science</u>, EERE and ARPA-E)
- Critical Materials Hub (EERE, Science ARPA-E)
